OSTEOPATHY

The ultimate objective of this therapy is good health, achieved by reducing pain, improving joint function, treating physiological dysfunctions and removing obstacles for optimal nerve transmission. It is a type of alternative medicine that uses manipulation techniques aimed at restoring the overall balance of the body, its functions and its well-being. Osteopathy treats the individual as a whole, as a system composed of muscles, skeletal structures and internal organs connected in the nerve centres of the spine. Each constituent part of the person (psyche included) depends on the other ones and their correct functioning ensures the well-being of the entire organism.

OSTEOPATHY CONSULTATION

Consultation with a manual diagnostic and therapeutic approach that treats the dysfunctions of joint mobility and tissue injury.

OSTEOPATHIC CERVICAL MASSAGE

A treatment for people who suffer from cervical muscle tension and would like to get rid of it while enjoying a relaxing massage. The session aims primarily to rebalance the postural alignment, followed by a fascial release of the neck muscles and an osteopathic correction of the unaligned vertebra, that often cause various forms of neck and shoulder pain. Finally, a relaxing massage to soften the muscles and release all residing tensions.

OSTEOPATHY MANIPULATIVE TREATMENT

This is a process by which the body is guided to find harmony and integration between body, mind and spirit, which restores the self-healing powers of the individual. Because it acts primarily on bone and skeletal structures, it is more suitable for issues such as sports injuries or back pain.

CRANIO SACRAL TREATMENT

Cranio sacral osteopathy is named after the bone structures that encompass the nervous system (the cranium and the sacrum), protecting the brain and spinal cord. Working on these structures can connect you to the cranial rhythm that echoes throughout the body, reharmonising the body's natural functions and emotional state. Gentle and relaxing, this treatment is especially suggested for treatment of headaches, cervical tension or stress-related problems.
