01.

PRIVATE SPA

Inspired by the natural elements of the mountain, the two luxurious Lefay SPAs are characterised by unique environments and wellness paths to rediscover yourself in a sensual trip for two.

AMONGST THE FOREST

In the magical atmosphere of an enchanted forest, a ritual that evokes the harmony of nature, the scents of blooming meadows and the fascination of waterfalls: the revitalising sensation of being wrapped by drops of fresh water and sparkly flowers on the river banks. A charming experience to share, protected by the surrounding trees, guardians of the untouched beauty. It is said that the keeper of the forest was a fairy who once lived in the valleys' waterfalls, hidden between clouds of water in summer and icy crystals in winter.

LEFAY WELCOME RITUAL:

THE ALPINE LAKE

In this re-imagined lake area, surrounded by conifers, mind and body relax, relieving stress and tiredness with a warm bath in the water enriched with precious alpine essences.

FACIAL TREATMENT UNDER THE STARS AND AMONGST THE ALPINE FLOWERS

It is said that when the Dolomites emerged from the waters, magical creatures gave life to the flora and fauna of the area. The highest mountains however, naked and bare, suffered: the sky heard their cry and a star was dropped amongst the rocks, seed of edelweiss. These flowers, exposed to massive ranges of temperature and ultraviolet radiations, have effective defences that are also beneficial to our skin. The phytonutrients contained in flowers and used in this anti-ageing treatment, protect the skin from free radicals and slow the ageing process. The treatment begins with a scrub that prepares the face for the massage, which stimulates the regeneration of tissues. Finally, the facial mask restores radiance to the skin.

MASSAGE OF THE NARDIS FAIRY

Evokes the scent of fresh greenery and evergreens that grow on the shores of waterfalls and Alpine streams. The water flows from the source toward the pastures and meadows, taking the fragrances of blooming meadows. The massage is carried out using arnica and hypericum oil and has an anti-inflammatory and relaxing action on the whole body.

THE CHALET

A special moment for two in a romantic chalet, like in a remote mountain retreat, away from everything else. This Private SPA is inspired by the intimacy of traditional alpine cottages overlooking the magnificent peaks or hidden near the silent forests. Here, it is possible to breathe notes of amber from the wooden panels and the warmth of secret space, like a little den, tucked away in the quiet of nature.

LEFAY WELCOME RITUAL:

MOISTURISING BATH

A hypnotic softness coats the skin like a warm and nourishing veil: a moisturising bath with honey, Lefay olive oil and horse chestnut, that creates a state of absolute relaxation and well-being in mind and body.

SCRUB "THE CARESS OF THE FOREST"

A body Scrub made with chestnut flour, salt and traditional alpine mountain butter: the flour, made from chestnut trees that surround the valley, combined with the Alpine salt and butter, has a smoothing and emollient effect, leaving the skin soft and ready to receive the enveloping couple massage.

MASSAGE OF THE FAUNS

Fauns are creatures that go back to the Greek and Roman mythology and, in particular, to the God Pan, protector of pastures, forests and all of their creations. It is said that they were used to hunt and court the nymphs of trees. This massage is performed using warm compresses containing aromatic herb of the forest, soaked arnica and hypericum oil which has an anti-inflammatory and relaxing action.

A MOMENT OF RELAXATION WITH THE FAUNS' REFRESHMENTS

The ritual ends with a moment of relaxation accompanied by a warm drink and delicacies to be shared as you huddle in front of the fireplace.

RITUALS FOR COUPLES

CANDLE MASSAGE IN SPA SUITE

A sensual couple's ritual that indulges all the senses: the light emanating from the candle creates the atmosphere and acts as chromotherapy, while its perfume (aromatherapy) induces a feeling of relaxation. An unforgettable experience to share with a partner.

€ 200,00 per couple (45 min.)

RITUAL OF THE ARCTIC WONDER

An exciting experience inspired by the encounter between hot and cold. A ritual to discover the beauty of polar nature: landscapes with sharp and immaculate ice, voluptuous hot springs and an unexpected under water flora. It starts with a crystal bath, cradled by the waves of the whirlpool and inebriated by the relaxing vapours. Then, the soul wanders until the gommage treatment with salt flakes that completely regenerates the skin. The ritual ends with a Merveille Artique Massage, inspired by the Swedish technique for muscular relaxation and performed with bubbles of ice to create a symphony of thermal exchanges on the skin surface.
